

THE HYDRO PICOMAX

Description

The Picomax is a wall-mounted water system housed in a powder-coated cabinet, designed to supply consistent feed water to laboratory faucets.

General Information

Series

Pico Series

Water Quality

Produces ASTM Type I / CAP
Type I Reagent Grade Water

Distribution

0.5 GPM (1.9 LPM)

Applications

General laboratories, research
facilities, education, routine
testing applications

Dimensions

30"L x 10"W x 30"H

Faucet

Gooseneck, Flex or Flex
Rinse Combo

Key Features

- Wall-mount cabinet
- Highly activated carbon media for chlorine/chloramine removal & TOC reduction
- Pharma-grade mixed-bed DI resins
- Electropolished stainless steel spout
- Pairs with your choice of Picotap faucet

Performance

Resistivity: 18 MΩ·cm @ 25°C

Conductivity: 0.056 μS/cm @ 25°C

TOC: < 20 ppb

Bacteria: ≤ 10 CFU/mL

Sodium: < 1 ppb

Hardness: 0 ppb

pH: 6.8 – 7.0
